### **APJ Partner Velocity Team**

### Redefine partner support model

- Improve partner business resources productivity + partner experience by redirecting administrative and operational tasks via a shared services model.
  - Estimated time spent on secondary admin tasks average = 80 hrs/month for DPBMs, and 60 hrs/month for PBMs
- Velocity Team to start with 5 shared services resources based in Bangalore, India to support the ANZ, SEAK and India regions
- Partner Velocity Team to align with similar initiatives already deployed in China and Japan

#### PARTNER VELOCITY TEAM

The following tasks could be assigned to support functions to allow PBM + PSE community to focus upon Partner Business development and growth initiatives.

- Partner certification.
- Partner support request escalations.
- Partner program exceptions.
- · Report and Dashboard creation.
- Partner Recruitment.
- Partner portal navigation.
- · Partner license requests.
- · Order management and fulfilment enquiries.

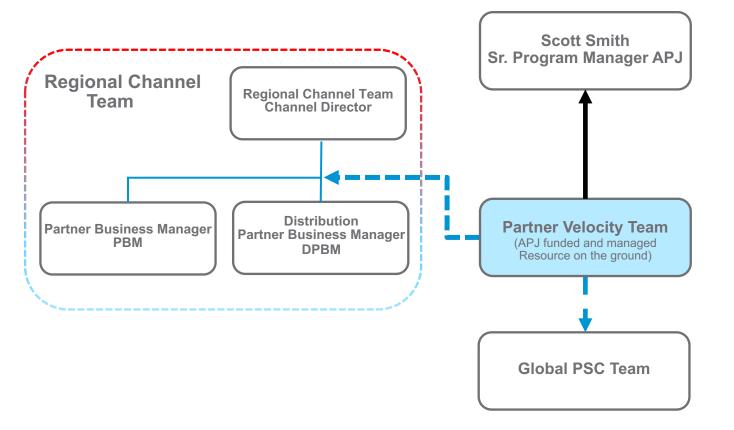

### **APJ Partner Velocity Team**

PBM + PSE Productivity gains can be achieved by:

- Establishing a regional Partner support centre.
- Expanding functional support from Global PSC

### **Proposed Organizational Structure**

#### **COLLABORATION ON THE GROUND**

#### Governing philosophy:

- APJ funded and managed in country resources.
- Matrix reporting line to Regional Channel Team and Global PSC.
- Collaboration and mentoring of local resources through an integrated team approach with in-country Regional Channel Team.

# **Team Coverage**

	Role	Responsibility							
Amit Vempala	Team Lead	Greater China							
Sapna Pohani	Operations Analyst	ANZ							
Sivakumar Sekar	Operations Technician	Ignite/Amplify, Japan, Technical							
Vinay Raj K R	Operations Analyst	India							
Mahesh Venkatesh	Operations Analyst	SEAK							

## **Key Activities for Q3**

- Partner Connect Renewals
- Ignite and Amplify Program Coordination
- Partner Connect Gap Analysis for annual review for FY22
- JBP KPI follow-up
- Partner Program and Incentive Support
- Ad-hoc Reporting

### **Appendix**

#### **RACI MATRIX**

RACI Matrix framework used to identify administrative tasks and was pivotal to the evaluation of tasks that could be assigned to third party support organizations, such as:

- Partner Velocity Team to function as extension of Global PSC / Partner Network.
- Access to PS2 Team for standardized reporting.
- Geocentric business analytics team.

#### Tasks addressed include:

- Partner On-Boarding and support
- Partner Support
- Partner Operations management
- Partner relationship management
- Partner reporting and governance
- Partner Enablement
- Partner Marketing
- Partner Sales
